

This appendix is intended to list recovery operations as they are carried out in practice. Waste must be recovered without endangering human health and without the use of processes or methods likely to harm the environment.

Category	Description
R1	Solvent reclamation or regeneration
R2	Recycling or reclamation of organic substances that are not used as solvents
R3	Recycling or recovery of metals or metal components
R4	Recycling or recovery of other inorganic materials
R5	Regeneration of acids or bases
R6	Recovery of components used for pollution abatement
R7	Recovery of components from catalysts
R8	Oil regeneration or other re-uses of oils
R9	Use principally as a fuel or other means to generate energy
R10	Spreading on land for the benefit of agriculture or ecological improvement, including composting and other biological transformation processes (except for animal carcasses and the following agricultural waste: fecal matter and other natural, non-dangerous substances used in farming)
R11	Use of wastes obtained from any of the operations in R1 to R10
R12	Exchange of wastes for submission to any of the operations in R1 to R11
R13	Storage of materials intended for submission to any operation in this Appendix, (excluding temporary storage pending collection at the site where it is produced)
