

Engineering Field Activity Northeast ROICC EAST PA AREA

NAS/JRB Willow Grove

Contract Number: 00-D-0801; TO #0001 Repairs Runway 33 Threshold Pavement

This project is composed of a base bid and four options. Majority of work will include the repair of Runway 33 and 15's threshold pavement. In addition, twenty of the most damaged concrete slabs totaling 3,750 SF will be replaced, the milling and replacement of the bituminous concrete used for the south end contractor laydown area totaling 56,200 SF, and repaving of the perimeter road to be utilized for the north end paving effort.

Award Date: 9/25/01
Current CCD: 11/22/02

Contract Number: 00-C-0800; TO #0002 Hangar AFFF Modifications (80, 175, 177, 680)

This environmental protection project will provide containment tanks for Aqueous Film-Forming Foam from the existing fire suppression systems. Three underground 20,000 gal. tanks and diversion pits will be installed for the four hangars (80 & 680 sharing one). Also included are fire system upgrades to current NFPA & Military codes.

Award Date: 26 March 2002
Current CCD: 2/14/03

**Contract Number: 99-D-0817; TO #0005
Hangar 175 Crane Rails Repair**

This project will include the removal of existing crane rails and installation of new structural steel crane rails, as well as other incidental related work.

Award Date: 9/27/01
Current CCD: 9/07/02

**Contract Number: 99-D-0817; TO #0005
Radar Air Traffic Control Facility, Bldg. 780**

This project involves the renovation of interior partitions, ceilings, and raised flooring as well as upgrading various electrical, lighting, and air-conditioning systems. It also includes a concrete decorative block addition and other incidental related work.

Award Date: 9/28/01
Current CCD: 10/14/02

**Contract Number: 00-D-0803; TO #0003
Hangar 201 Revitalization & Add High Expansion
Foam System**

This project includes a conversion for the AFR's C-130 aircraft hangar sprinkler system to a high expansion foam system, along with general interior renovation of office and workspaces. This MILCON project for the 913th AW updates the original late 1950's water-only sprinkler system to current AF standards for hangar fire protection.

Award Date: 9/14/01
Current CCD: 11/15/02

**Contract Number: 02-C-3906
Reconfiguration of Ball Field & Repairs to Patio
Roof**

This project includes the reconfiguration/improvement of the existing ball field adjacent to Bldg. 174 and the construction of a 36 ft. by 80 ft. roof over the patio area at Bldg. 174.

Award Date: 9/26/02
Current CCD: 04/01/02

Contract Number: 02-M-4331

Install Running Track

This project includes the construction of running/walking track around the park area between Bldg. 1 and Bldg. 5. Work to include the installation of storm drainpipes to assist drainage.

Award Date: 9/26/02

Current CCD: 12/09/02
