

# ***LOAD TEST DIRECTOR***

**COURSE LENGTH:** 24 Hours (3 days)

**CLASS SIZE:** 12-25 students

**TARGET AUDIENCE:** *Equipment Inspectors, Mechanics, Electricians, or Crane Operators serving as Load Test Directors.*

**SYNOPSIS:** The course prepares the students to become test directors and perform load tests on weight handling equipment. Emphasis is placed on personnel and equipment safety and documentation. Students learn to calculate test loads and test the equipment to approved test procedures.

**PREREQUISITES:** None. Preferably, students should have a strong mechanical or electrical background.
