MEMORANDUM

From: Director, Naval Radiological Defense Laboratory
To: Planning Officer

Subj: Equipment on CVL-22; availability of

Encl: (A) Equipment aboard the CVL-22

1. During the course of laboratory operations aboard the USS INDEPENDENCE, CVL-22, certain equipment of possible future usefulness has been observed. Enclosure (A), forwarded herewith, enumerates this equipment, together with serial number, material condition and location.
2. If removal of all or part of the equipment listed in enclosure (A) is decided upon, the laboratory will provide assistance and technical advice relative to decontamination as necessary. Preliminary monitoring of the equipment has indicated that all of the items are within the limits for final clearance established by Bureau of Ships and Bureau of Medicine and Surgery.
